

The other day I was in the living when all of a sudden I heard my little two year old girl scream out from her room “Daddy come here, I need you.” So as I lay on the couch I told her, “Baby I’m busy, you come here.” At that time I heard her start crying and knew something was wrong. She screamed back at me “Daddy I can’t.” So I jumped up, ran to her room to find that she had climbed up on top of some boxes in her closet. The problem was she did not know how to get down. She was scared and now wanted her Daddy. She knew she could not get to me so she did the only thing she new to do, cry out for her daddy to come to her rescue. And as any loving father would do when they hear their children cry out for help, I ran to her.

Such was the case in my life. There was a time I found myself in a place that I could not get out of. I was scared and needed my Heavenly Father. The problem was I could not get to where He was, so I cried out, “Please come down to me.” And at the mention of His name He came to my rescue.

Do you remember the day Jesus came to you? What a day that was in my life. I was dead in my sins and headed to Hell, but Jesus in His grace came to where I was. He raised me to life, gave me hope and glory in my soul, and He set me on a new path! He came to me!
